

```
namespace Whilewhile
{
    public partial class Form1 : Form
    {
        public Form1()
        {
            InitializeComponent();
        }

        private void label1_Click(object sender, EventArgs e)
        {

        }

        private void btnPlay_Click(object sender, EventArgs e)
        {
            int treasure = 1;

            lstScore.Items.Clear();

            while (treasure <= 10)
            {
                lstScore.Items.Add("Treasure " + treasure);
                treasure++;
            }
        }
    }
}
```

2nd

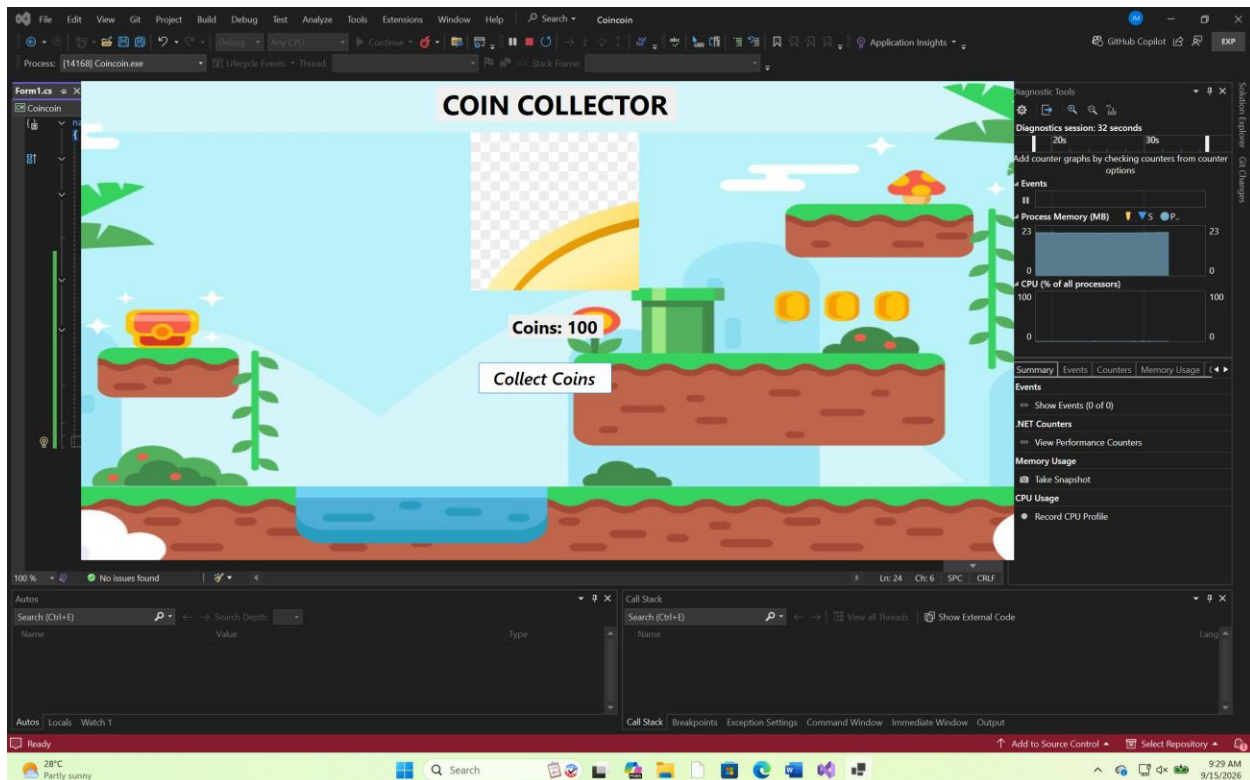

```
namespace Teodoroooo
{
    public partial class Form1 : Form
    {
        public Form1()
        {
            InitializeComponent();
        }

        private void btnGuess_Click(object sender, EventArgs e)
        {
            int secret = 7;
            int guess = Convert.ToInt32(txtGuess.Text);

            while (guess != secret)
            {
                lblMessage.Text = "Wrong Guess! Try Again.";
                return;
            }

            lblMessage.Text = "You Win!";
        }
    }
}
```

3rd

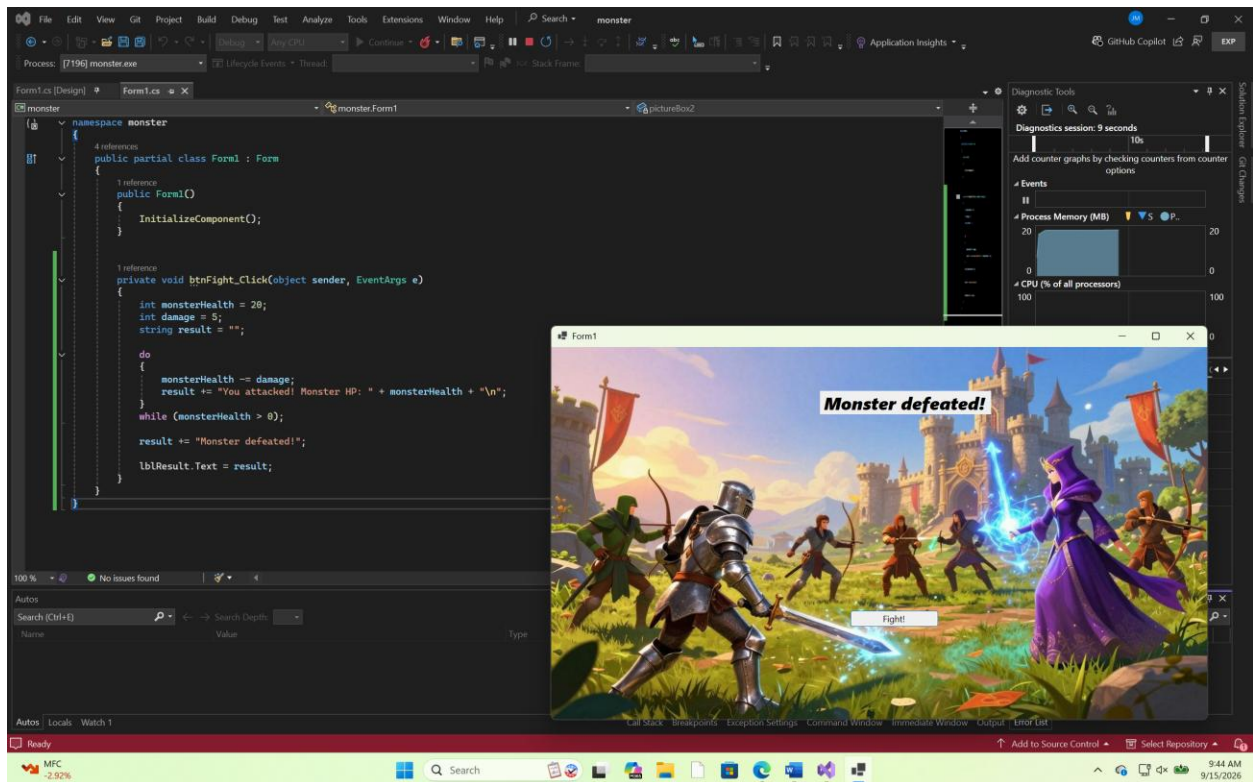

```
namespace Coincoin
{
    public partial class Form1 : Form
    {
        public Form1()
        {
            InitializeComponent();
        }

        private void btnCollect_Click(object sender, EventArgs e)
        {
            int coins = 0;

            do
            {
                coins += 10;
            }
            while (coins < 100);

            lblCoins.Text = "Coins: " + coins;
        }
    }
}
```

4th

```
namespace monster
{
    public partial class Form1 : Form
    {
        public Form1()
        {
            InitializeComponent();
        }

        private void btnFight_Click(object sender, EventArgs e)
        {
            int monsterHealth = 20;
            int damage = 5;
            string result = "";

            do
            {
                monsterHealth -= damage;
                result += "You attacked! Monster HP: " + monsterHealth + "\n";
            }
            while (monsterHealth > 0);

            result += "Monster defeated!";

            lblResult.Text = result;
        }
    }
}
```
